

**UNIVERSITY HOSPITALS COMMUNITY CONSORTIUM
ST JOHN MEDICAL CENTER, INTERNAL MEDICINE RESIDENCY
CURRICULUM OUTLINE**

The curriculum is subject to changes in ACGME Common Program Requirements for Internal Medicine and at the programs discretion.

PGY1	General Internal Medicine	5 ½ blocks
	ICU Critical Care Medicine	1 block
	Cardiology Inpatient	1 block
	Emergency Medicine	1 block
	Outpatient Continuity Clinic	3 blocks
	Pulmonology	½ block
	Nephrology	½ block
	Anesthesia	½ block
PGY2	General Internal Medicine	4 blocks
	ICU Critical Care Medicine	2 blocks
	Endocrinology	½ block
	Infectious Disease	1 block
	Rheumatology	1 block
	Geriatrics	1 block
	Outpatient Clinic	½ block
	Elective	3 blocks
PGY3	General Internal Medicine	5 blocks
	ICU Critical Care Medicine	1 block
	Cardiology Inpatient	1 block
	Neurology	1 block
	Gastroenterology	1 block
	Hematology/Oncology	1 block
	Elective	3 blocks

All elective rotations must be pre-approved by the rotation's preceptor, the Program Director, and Program Coordinator.

In addition to scheduled rotations, residents will be required to complete a continuity care experience. The consistency of clinic days and the schedule for individual residents' continuity care experience will be determined and scheduled by the Program Director and/or Program Coordinator. This experience will occur within a General Internist's office and residents will be expected to build a panel of patients to follow throughout their training. The emphasis on the panel's development should occur during the first two years of residency.

*1 block is equal to 4 weeks.

**Elective choices include but are not limited to Pulmonology, Endocrinology, Gastroenterology, Hematology/ Oncology, Infectious Disease, Nephrology, Rheumatology, or Neurology medicine.
